

# TUTELA TRANSMISSION ZC 90 Cod. 1450

## DESCRIPTION

Oil for mechanical transmissions of cars, commercial and industrial vehicles. Ideal for gears, non-hypoid differentials/gears, transmissions requiring a lubricant with anti-wear characteristics.

Oil for the back hub of 2 wheeled vehicles.

## CHARACTERISTICS

- Excellent lubricant film adhesiveness to ensure optimal protection in all conditions.
- Excellent anti-wear characteristics for more durable life of the transmission components (gears, bearings, wheels, shaft, selectors, etc).
- Excellent general compatibility with metals, alloys and packing contained inside the transmission.
- High anti-foaming and demulsifying characteristics in order to ensure constant lubrication and maximum heat removal.
- High viscosity index to optimise the fluency in all temperatures.
- Smoothness of cold running to ensure gear changes even at the lowest temperatures.

As a result of the extremely high quality of the product, TUTELA ZC 90 can be used wherever anti-wear oil is required.

## ADVICE ON USE

TUTELA ZC 90 is available in SAE 80W-90 grade for all year round use.

On heavy commercial vehicles, changes should be made according to the Manufacturers recommendations, and in all cases at least once a year.

## RECOMMENDED BY

Iveco, Astra.

## APPROVED BY

Piaggio, Gilera.

## TECHNICAL DATA

SAE 80W-90, API GL 3,  
IVECO 18-1807 CLASSE MG, CONTRACTUAL TECHNICAL REF. N°I001.A87
